DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Applicant's Remarks, filed 1/18/2008, with respect to the rejection(s) of **claim(s) 1,6-8,10-13,18-20,22-25,30-32,36 and 41-43** under 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of the below office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. **Claims 1,6-8,10-13,18-20,22-25,30-32,36 and 41-43** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. After further analysis of the Applicant's claimed language and the defined limitations in the Specification, the Examiner is unaware of the interpretation of the claimed "wireless system" that is repeatedly claimed. It is not clear and adequately disclosed what constitute the claimed "wireless system". The Specification, mentions the "wireless system", but provides no concrete support as to the differentiation function/definition between the "wireless system" and

the digital cellular phone system. Without the defined information as to what the wireless system is, the Examiner is unable to deduce the broadest, most reasonable interpretation of the claimed language.
